## Early Childhood Garden

Students in the Early Childhood Program are “Garden Leaders” for an organic garden on the Fishinger Road side of Wellington’s campus. Each class, from Little Jags through Kindergarten, participated in spring planting for many delicious vegetables, fruits, and herbs. They learned to sow, transplant, weed, water, and check for pests throughout the year.

We invite your family to participate in our garden experience this summer by reaping the benefits of our labor (harvesting veggies, fruits, and herbs) while also, checking on our plants and watering if needed. There will be: lettuce varieties, swiss chard, broccoli, strawberries, tomatoes, cucumbers, beans, watermelon, cantaloupe, eggplant, peppers, and herbs!

You are welcome to visit the garden once every two weeks and harvest produce for one large salad while you check on our plants. We want to ensure that there is enough for all of our families throughout the summer.

Have a great summer and please enjoy this very special experience with your child!

If you have any questions, please contact our Director of Gardens, Joya Elmore, at [elmore@wellington.org](mailto:elmore@wellington.org).
