Wellington T-Shirt	<ul style="list-style-type: none">• Wellington branded t-shirts in blue, white, or gray

Technology

The Bring Your Own Device (BYOD) program allows students and families to express personal choice in device selection. Our minimum device specifications are changing to reflect the growing use of more sophisticated software by our 7th and 8th graders. Many students are now exploring Adobe Creative Cloud applications that go well beyond the Chromebooks. The new specifications for devices listed below also aligns the 7th and 8th grade BYOD program with the 9th through 12th grade program. All students must provide headphones or earbuds for use at school.

- Fall 2022:

7th grade students are required to bring a laptop to school. The laptop must run either the Microsoft Windows or the Apple OSX operating system. This change is being made to align the 7th and 8th grade program with the 9th through 12th grade program. Moderately priced laptops are perfectly acceptable.

8th grade students are included under the old Chromebook policy and may elect to bring an existing Chromebook or laptop to school. Note, if you are purchasing a new computer for an 8th grade student, you should ensure it meets the newer Windows or OSX requirement.

- 2023-2024 School Year Onward:

All 7th and 8th grade students are required to bring a laptop to school. The laptop must run either the Microsoft Windows or the Apple OSX operating system. This change is being made to align the 7th and 8th grade program with the 9th through 12th grade program. Moderately priced laptops are perfectly acceptable.
